Title: Senior UI Developer

Facilisgroup is seeking a talented Senior UI Developer experienced in ASP.NET to join our Product Engineering team. This team develops and enhances Facilisgroup's software products and services such as our proprietary CRM and Order Management web-application and E-Commerce platform.

The ideal candidate will collaborate with designers, product managers, and other software engineers to provide a first-class user experience to our partners and their clients.
This team is one of three teams responsible for delivering continuous software updates and improvements to our end-users. The software you help improve and maintain will be utilized by thousands of Sales Reps in the promotional products industry across North America, and by millions of their clients.

Responsibilities

- Maintain, created, and extend the UI framework that powers our software products
- Work closely with designers and other UI developers
- Establish, promote, and maintain best practices for using and adding to the UI framework
- Ensure that UI implementations are scalable, flexible, and simple to use
- Implement pixel-perfect recreations of designs provided by UI Designers
- Assist in designing new areas of functionality and user experience in the UI
- Mentor and coach less experienced team members in best practices
- Ensure that all UI work shipped is of the highest level of polish
- Desire to pitch in with or learn about other layers of software development

Qualifications

- Experience developing web applications using C# and/or ASP.NET
- Deep understanding of JavaScript, and relevant frameworks
- Experience with asynchronous JavaScript/XHR
- A well-rounded understanding of CSS
- A well-rounded understanding of HTML
- A minimum of 4 years' experience working in web-based UI Development in a commercial environment
- Incredible attention to detail
- A desire to achieve a pixel-perfect user interface
- Excellent verbal and written communication skills
- Fluent in English

Pluses

- Experience with Angular or React
- iOS or Android UI development Experience
- Computer Science, Design, or related degree
- Contributions to open-source or personal projects

Bonus Points

- Knowledge of the Promotional Products/Advertising Industry

- A public GitHub account with recent activity

Application Requirements

- Resume
- Examples of recent User Interfaces you've worked on
- Cover letter, detailing:
    - Why this job or role appeals to you
    - What you can offer less experienced developers to aid in their growth
    - Why you are interested in working at Facilisgroup

Facilisgroup is a proven, ever evolving company with year over year growth rates of 12-15%. If you see yourself as a fit for this position, send your resume to hr@facilisgroup.com

We would like to thank all applicants for their interest, however only candidates under consideration will be contacted.
