

Title: C# Software Engineer

Facilisgroup is looking for a talented Software Engineer experienced in .NET software engineer to join our Product Engineering team. This team develops and enhances Facilisgroup's software products and services such as our proprietary CRM and Order Management web-application and E-Commerce platform.

The ideal candidate will collaborate with designers, product managers, and other software engineers to provide a first-class user experience to our partners and their clients. This team is one of three teams responsible for delivering continuous software updates and improvements to our end-users. The software you help improve and maintain will be utilized by thousands of Sales Reps in the promotional products industry across North America, and by millions of their clients.

Qualifications

- Experience developing web applications using C#
- Knowledge of current application development trends, architectures, and patterns
- Bachelor's Degree in Computer Science or equivalent experience
- Passion to learn and grow as a software engineer
- Excellent verbal and written communication skills
- Fluent in English

Pluses

- Experience developing web applications or back-end services using C#
- Experience developing and integrating with relational or document database solutions
- Experience authoring, executing, maintaining, and analyzing the result of unit, integration and regression testing
- Contributions to open-source or personal projects

Bonus Points

- Knowledge of the Promotional Products/Advertising Industry
- A public GitHub account with recent activity

Application Requirements

- Resume
- Cover letter, detailing:
 - Why this job or role appeals to you
 - Why you are interested in working at Facilisgroup

Facilisgroup is a proven, ever evolving company with year over year growth rates of 12-15%. If you see yourself as a fit for this position, send your resume to hr@facilisgroup.com

We would like to thank all applicants for their interest, however only candidates under consideration will be contacted.
